3500+ Sound Effects With Free Future Updates!

Multi-purpose high quality sound effects library containing THOUSANDS of sound effects ultimately suitable for any game genre.

Affordable royalty free sound effects for commercial games and for rapid prototyping of new ideas.

Current version (1.5.5) contains 3500 categorized 16 bit 44.1kHz WAV files (stereo and mono depending on suitability).

Sounds are game-ready and have been optimized in length to reduce size of game distributions.

The sounds are free of clipping, always start/end at volume 0 to avoid any clicks or pops, and looping sounds are seamless.

Each sound is named appropriately and also has asset labels to allow quick search within Unity.
